CLASS: III

ALL RIGHTS RESERVED FEBRUARY 2019

Dear Parents

George Bernard Shaw categorically asserts that “Life isn't about finding yourself. It's about creating yourself”

The advent of February gives a clarion call to the beholders to rejoice at the blissful and idyllic beauty of the earth with magnanimous heart. Among all seasons, Spring is regarded as queen of seasons due to its grandeur and magnificence in adorning the beauty of nature with boundless hues of flowers, buzzing bees for extracting nectar, fluttering butterflies with its enchanting wings and above all with the pleasant weather. Spring is nature's way of reminding us that every day is worthy of celebration.

There's something about springtime that makes all of us happy. Perhaps, it's apparition of the blue skies and the bright sun - indicating that the summer months are getting closer. Like the rising of the sun, many view spring as the beginning of something new.

Winter is the symbol of desolation and barrenness whereas spring stands for joyousness and fruitfulness. The quotation assumes significant application to the present state of affairs. We are crumbling under the mounting pressure of pessimism and self-frustration. Today various factors of life have made man morbidly tired of himself. In the midst of intellectual, moral and spiritual bankruptcy, the forces of optimism though bleak, appear to be the only sustaining force. It is wrong on our part to lose faith in the ultimate goodness of things. We must realize that in the course of life, good and evil days follow in succession. The beauties of spring make us forget our worries and sorrows.

Our vibrant Dipsites would be gearing up for their Annual Examination slated to be held in March. Hence, the need of the hour is to spare quality time with your wards so that they do well in their impending examination as your assistance in academics is imperative and highly indispensable.

Warm Regards,
Principal

GLOBALLY IMPORTANT DAYS OF THE MONTH

Surajkund

Craftsmela(1-15)This festival is the right place to enjoy the regional and international crafts and local traditions. This is the place of exhibition of diverse handlooms, handicrafts, masterpiece and others. This is one of the largest craft exhibitions in the world. We can find many artists perform in the open-air theaters. We can also enjoy many joy rides, cuisine of the land and other attractions here.

World Cancer Day (4) The primary goal of World Cancer Day is to significantly reduce illness and death caused by cancer. The day is observed to raise awareness of cancer and to encourage its prevention, detection, and treatment.

CAMPUS CLANDESTINE

The month of January brought with it the interesting world of plants and herbs, as the Theme and the Project of the month respectively. The students were encouraged to explore the Kingdom of plants through a variety of activities and discussion. The different habits and habitats of the plants were explained through different media; story- telling, AV aids and teaching learning materials. The students also enjoyed playing the Grammar games, taking part in the Thursday Activities and trying to explain the phenomenon of refraction in the Reggio Emilia Activity. The ‘Cooking Activity’ was thoroughly enjoyed by the students as they made their own salads. At the end of the project week, the students had become very well aware of the economical and medicinal values of the different herbs. They were able to recognise and recollect the importance of some of the common herbs.

International

World Radio Day (13)This day marks a time where people around the world celebrate radio and how it shapes our lives. Radio informs, transforms and unites us. It brings together people and communities from all backgrounds to foster positive dialogue for change. World Radio Day 2019 will celebrate the theme of “Dialogue, Tolerance and Peace”.

National Science Day(28) is celebrated in India to mark the discovery of the Raman effect by Indian physicist Sir C V Raman on 28 February 1928. For his discovery, Sir C.V. Raman was awarded the Nobel Prize in Physics in 1930. The basic objective of observation of National Science Day is to spread the message of importance of science and its application in the daily life of the people.

Unit 14 - The Prince and the Robber
Unit 10- Rustle is Green (ONLY for reading) **Workbook 3:** Unit 14- WS 1, WS2, WS3, Unit 10- WS 1, WS2, WS 3

Tasks for Formative Assessment

EVS: Unit 1- Poonam's Day out, Unit 18- A house like this (activity based), Revision

MATHS

Unit 18 Measures of Capacity, Word Problems ex 19(c), Unit 20 Data and Charts, Revision

HINDI

साहित्य:-शेखीबाज़ मक्खी।

❖ व्याकरण:- सम्पूर्ण व्याकरण की पुनरावृत्ति

❖ अनुच्छेद:- बसंत का मौसम।

❖ कथा लेखन:- (चित्रों के आधार पर)।

**Ingredients:**

- Fine semolina (suji / rawa) 1 cup
- Pure ghee 1/2 cup
- Saffron a few strands
- Milk 2 cups
- Cashewnuts and almonds chopped 1/4 cup
- Medium ripe bananas 2
- Green cardamom powder 1/2 teaspoon
- Sugar 1 cup

METHOD

Heat ghee in a deep non-stick pan. Boil milk with 2 cups water in another deep non-stick pan. Add fine semolina and saffron strands to hot ghee and sauté on low heat till light golden brown. Add half the dry fruits to sautéed semolina and continue to sauté. Peel and cut bananas into small pieces and add to semolina mixture, mix and sauté till the semolina turns dark golden brown. Add boiling milk mixture to sautéed semolina mixture and mix. Add cardamom powder, mix, cover and cook till the semolina absorbs the liquid. Add sugar, mix, cover and cook for 10 minutes or till all the moisture is absorbed. Remove from heat and cool slightly. Garnish with the remaining dry fruits and serve warm.

TONGUE TWISTERS

- *Lazy leaping lizards like licking luscious lollipops.*
- *Larry lion has a little ladybird that eats lemons on a leaf while learning to leap on a ladder.*

THEME OF THE MONTH (FEBRUARY – MARCH)– JUNGLE

A jungle is a land covered with dense vegetation dominated by trees. This month the theme JUNGLE will help the students to realize and feel the importance of jungle for animals and human beings. They will learn about the natural habitat of different animals, the importance of flora and fauna, the reasons for the continuous decline in number of animals and how to spread safety around the wild animals and fire safety in the woods. They will also be encouraged to explore the different types of jungles and forests and the main differences between them. They will also be made aware of the different types of forests in India.

PROJECT OF THE MONTH (FEBRUARY – MARCH)–LION

The project of this month is LION- the king of the jungle. During the project week, they will acquire more knowledge about animal kingdom, different homes of animals, animal movements and sounds made and characteristics of birds and animals. The two species of lions and the range of their habitats and their pride characteristics will be discussed thoroughly. The similarities and differences between the two species will be discussed and will be augmented by AV aids and other teaching-learning materials.

**PARENT PLUS**

- Give your child lots of opportunities to read aloud. Inspire your young reader to practice every day!
- Show your kids math at work in their world. Play with the items stored in your cupboard.
- Use positive body language to show approval for positive behavior.
- Show your child that you are happy to see them. Remind your child that they should be proud of themselves.

AMAZING FACTS

- An adult male's roar can be heard up to 8km away.
- A female lion needs 5kg of meat a day. A male needs 7kg or more a day.
- Female lions do 85-90% of the prides hunting, whilst the male lions patrol the territory and protect the pride.
- Lions don't actually chew their food, but rather swallow it in chunks, using only one side of their mouth at a time.
