

"Time is like a river. You cannot touch the same water twice, because the flow that has passed will never pass again. Enjoy every moment of your life." - Anonymous

Dear Parents

*"Your children are not your children
They are the sons and daughters of life's
longing for itself.
They come through you but not from you...
You are the bows from which your children,
As living arrows, are sent forth." -Kahlil
Gibran*

The ways that parents shape their children's development have been a long-standing source of theorizing by scientists, philosophers and parents themselves. Being a parent is a joy beyond words and all parents of course, want the very best in the world for their child. Parents naturally care a lot about their child's happiness and want to help them to grow into a wonderful person. Parenting has no age, it is one's lifetime. But the need of children changes with age and as per their individual abilities.

The tips offered here are actually a few ideas on different aspects of parenting to help you look at your ever-changing role from different angles because Parenting is both, an art and a skill.

Family Atmosphere and Your Child: A happy home provides happiness to the child. The world you create around the child and your inputs in his/her growth strongly influence his/her personality.

Building A Positive Mindset: When your child is undergoing a rough phase give him/her the emotional cushioning he needs to get out of the blues.

Set Limits with Love: Avoid rewards to stop misbehavior because it gives the wrong signal. The child may think it to be the best way to get what they wish for.

A Healthy Mind in A Healthy Body: Allow your child to be adventurous; do not restrict his movements. Allow him to make mistakes and learn from them because it enlightens him.

Helping your child for forth-coming exams: To avoid the exam stress, check your child's note books regularly, spend time with them to discuss and clarify the doubts, encourage them to prepare a daily schedule, converse with the teacher for any aid and conduct a mock revision with a time limit.

Be a happy parent and give your child all she/he needs to be happy and successful in the world! Happy Parenting!!

Regards,
Principal

GLOBALLY IMPORTANT DAYS OF THE MONTH

PORI FESTIVAL(14-22) to mark religious events or seasonal changes, Himachal Pradesh celebrates this festival to strengthen the traditional beliefs of the rural people here. Celebrated with a great pomp and show, the Pori Festival is an annual feature at the Lahaul Valley and is symbolic to the historical and sociological background of the area.

CAMPUS CLANDESTINE

- The month of June is always special. As the children happily came back to the school after the relaxing Summer Vacation, we had some interesting activities in store for them. The Theme, 'Food' provided the gateway to connect with the kids through the discussions on healthy eating habits. The Thursday Activities were truly innovative as they enabled the children to explore and discover their hidden potential. Remarkably, the discussions and activities during the course of the month paved way for the children to recognize the importance of eating a balanced diet to stay healthy and active all through the day.

NATIONAL DOCTORS' DAY(1) is celebrated on July 1 all across India to honour the legendary physician and the second Chief Minister of West Bengal, Dr. Bidhan Chandra Roy. This observance fulfills a need to show the importance of doctors and physicians in our lives.

VAN MAHOTSAV (July 1st week) is an annual tree-planting festival in India. This movement was initiated in the year 1950 by India's Union Minister for Agriculture, Kulapati Dr.K M Munshi. It has gained immense national importance and every year, millions of saplings are planted all across India in observation of the Van Mahotsav week. People celebrate Van Mahotsava by planting trees or saplings in homes, offices, schools, colleges, etc.

- संख्यावाची 1-25

LUNCH BOX- SECRETS – JULY SPECIAL

FRESH FRUIT SPRING ROLLS

INGREDIENTS

1 apple & 1 mango
 ½ grapes
 1 peach
 1 kiwi
 4 strawberries
 10 raspberries
 1/8 cup pomegranate
 5 mint leaves fresh
 4 tbsp cream cheese
 4-6 bread slices

METHOD

Start by chopping fruits. Cut the apple and mango in long thin strips. Slice the strawberries, raspberries and kiwi into rounds and cut the grapes. Cut the sides of the bread and with a rolling pin thinly roll the slices. Spread cream cheese in the centre and put all the chopped fruits and roll the slice. Repeat for each spring roll making one at a time. Quickly make a dressing by mixing the chocolate sauce, cream and powdered sugar together in a bowl and serve with the fruit spring rolls.

TONGUE TWISTERS

Seven seasick seamen, on the ship 'Shangai' washed seven shirts in the sea.

THEME OF THE MONTH – MONSOON

'Rain drops are not synchronised yet they create that sound worth listening to.' - Sameera Pappu

Rain has always been described by generations of people in many ways, but for us in the Indian subcontinent, rain has always brought reasons for being happy. A bearer of good news and prosperity, monsoon season has always been looked forward to by everyone for more reasons than one. As a sign of relief from the sweltering

heat of Summer and as a source of water for the thirsty soil which then gets ready to support the crops, the source of food for the people. The South West and North East monsoons and winds which carry rain bearing clouds. Former is called the advancing monsoon, while the latter is called the retreating monsoon even though their origin is independent of each other. The children will be engaged in discussions and activities to discuss about the importance of monsoon and the need to save water, one of the most precious resources on Earth.

PROJECT OF THE MONTH – MOSQUITO

Mosquitoes are one of Nature's creatures which are everywhere and spread many diseases. They are the carriers of one of the deadliest diseases known to man; malaria. Various activities, discussions and audio visual aids will be used to make the children aware of the life cycle of the mosquito, different types of mosquitoes, the diseases they spread and ways and means to safeguard ourselves from them.

PARENT PLUS

- Time flies away very fast and before we know it, our children would grow and become self reliant. It is therefore important that we instill good habits in them and reinforce the same.
- Make sure that your children are developing healthy eating habits. Health plays a major role in a child's school performance.
- Monsoon rains must be knocking at your doorsteps by now. As much as this is a pleasant season, this is also the season of water-borne diseases. Practise and reinforce habits of hygiene.
- It is important to get the children into the habit of packing their bags according to the time table.
